# Holo I Mua

Hawaii State Public Library System

October 2010

**Breaking News:**

## Public Libraries will gain from \$36 Million Stimulus Grants

An award of nearly \$36 million to fund two broadband stimulus grants was announced by U. S. Senator Daniel K. Inouye. The grants were collaboratively submitted by the University of Hawaii, the Hawaii State Public Library System, and the Department of Education.

The grants will provide direct, high-speed fiber optic connectivity to the University of Hawaii, all Hawaii State Public Library System branch libraries and the schools of the Department of Education. It is believed that Hawaii will be the first state in the nation with high-speed fiber to every one of its public libraries and public schools as well as its public colleges and universities.

The grants also include nearly \$2 million to provide new broadband-connected computers for public use in 66 locations throughout Hawaii. These new capabilities will create a statewide safety net for Hawaii’s most disadvantaged citizens, providing technology access and training to help them improve their educational, social, personal and economic well-being.

In addition, the grants will help fund wireless internet access in all public libraries; public computer centers in many HSPLS branches; JAWS and ZoomText assistive access software for all computers in all HSPLS libraries; and additional computer hardware, software, and training for our staff to empower us to better serve the public.

## Libraries will Offer Fall Programs for Children and Teens
