MOVIES WITH AUDIO DESCRIPTION

Hawaii State LBPH is developing a collection of movies and documentaries with audio description. These DVDs have a feature that allows you to listen to narrators describe the events taking place on the screen. If there are any DVDs you would like to see added to this collection, please let us know! Please send any suggestions to our branch manager at baron.baroza@librarieshawaii.org. The Audio Description Project keeps an updated master list of available AD videos. Go to the [AD Master List](#) for titles with this feature.

"Getting a Feel for Lunar Craters" includes 8 tactile graphics of the moon and its craters. "Understanding Small Worlds in the Solar System" has graphics of Oort clouds, comets and other small objects in space. Audio files and text descriptions are also available from NASA's [Solar System Virtual Institute](#). Contact Hawaii State LBPH at 733-8444 if you are interested in borrowing these items.

VOLUNTEER FOCUS

Hawaii State LBPH held its 2018 Volunteer Recognition Luncheon at the Waialae Country Club on Tuesday, November 6, 2018. In attendance were dozens of volunteers, many staff members and several special guests. Showing their appreciation were State Librarian Stacey Aldrich, HSPLS Special Assistant Mallory Fujitani, Director of Hawaii State Library Marya Zoller and our Consultant from the National Library Service for the Blind and Physically Handicapped, Pam Davenport. Making a special presentation on health and longevity in the 21st century was guest speaker Dr. Terry Shintani. This luncheon was just a small token of the appreciation we have for the volunteers who donate their time and talent to help us provide important library services and resources to the community. Mahalo!
