

KAPAA PUBLIC LIBRARY

Our beloved Kapa'a Library is nearly 70 years old! Due to climate change and its impact on sea level rise, the library needs to be relocated. The Hawai'i State Public Library System (HSPLS) wants to ensure that residents have access to a more modern library, in a safe location.

HSPLS has completed a preliminary evaluation of alternative sites and has identified a desirable location at the southern-most portion of Samuel Mahelona Medical Hospital campus grounds.

We would love to hear from you! What services and programs do you wish to be included in the design of the future library? Please kokua by participating in a short survey. Mahalo nui for help!

Go to <https://arcg.is/nbXe4> or scan the QR code on your smart phone to read a short story about the future library planning and participate in a 5-minute survey.
